

Curso de Mecânica

Parte 1

1ª Parte: Montagem.

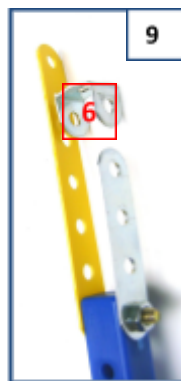

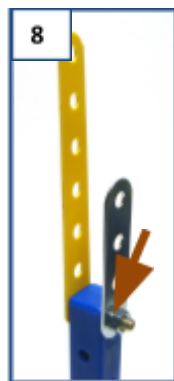

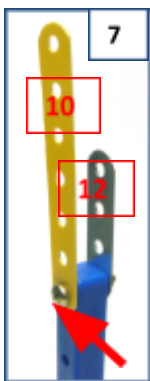

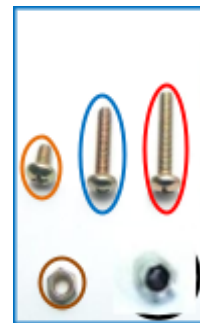

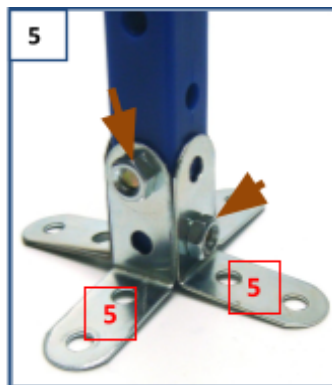

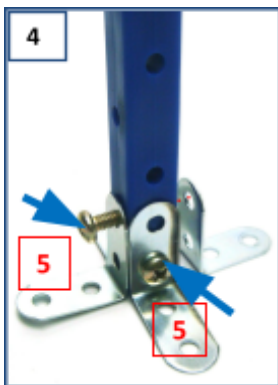

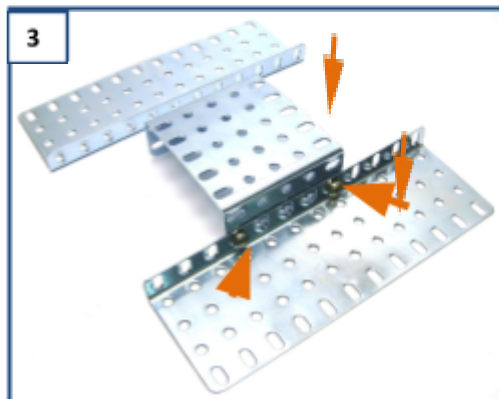

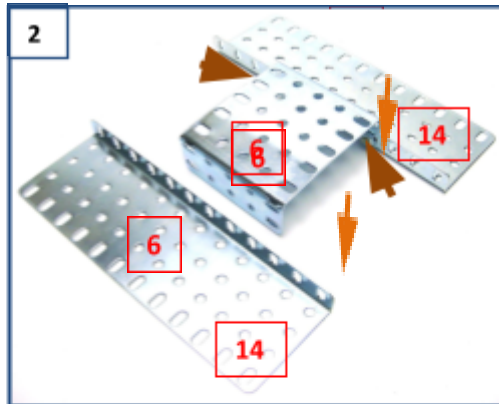

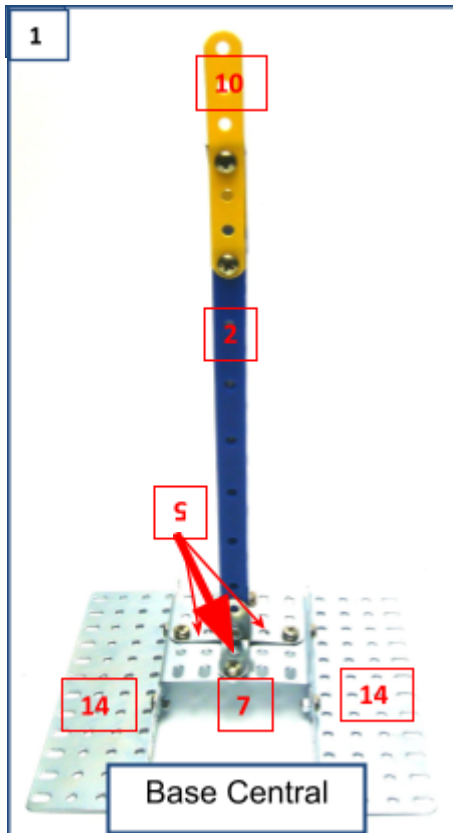

Projeto Balança

Lista de peças

As cores e padrões das peças podem ser diferentes das imagens.

Vamos começar a nossa montagem pelo que chamaremos de *base central*.

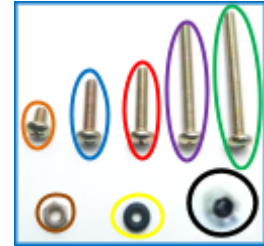

As cores e padrões das peças podem ser diferentes das imagens.

Agora com a base central já montada, vamos montar o *braço de medições*.

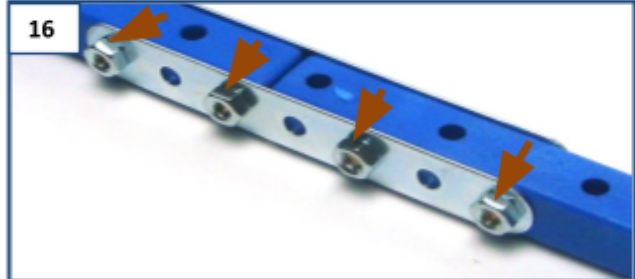

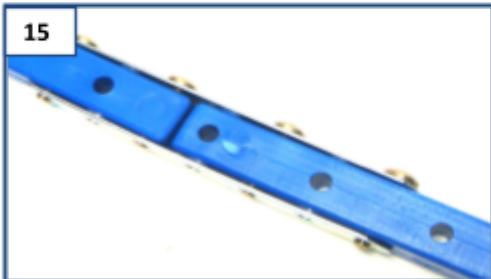

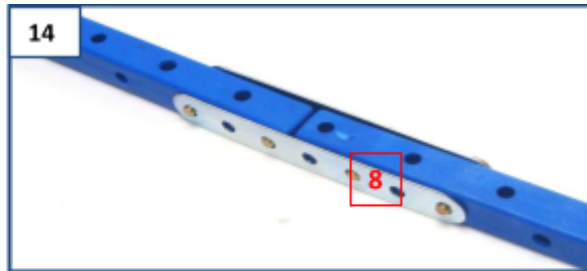

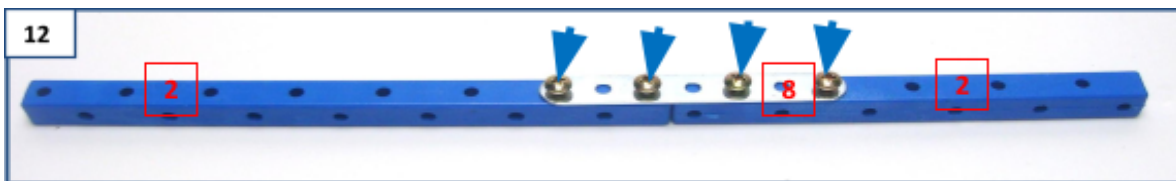

ATENÇÃO!

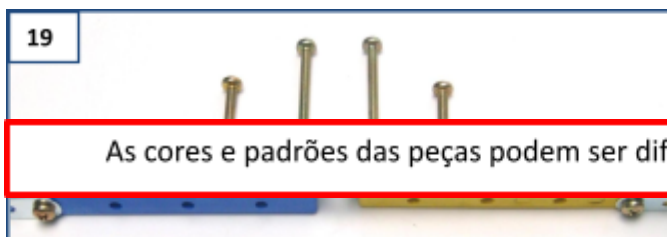

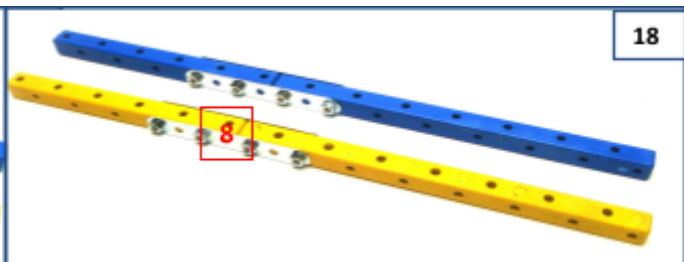

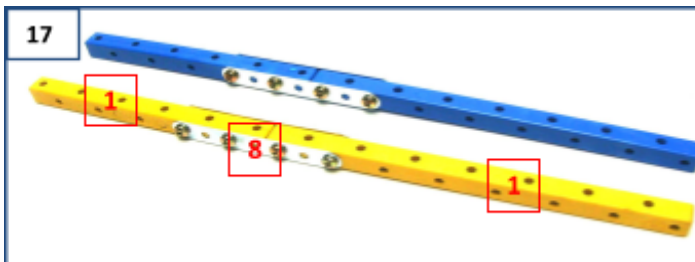

É muito importante seguir cada um dos passos montagem do braço de medições com muita atenção, pois na segunda parte do exercício serão feitas medições e uma montagem inadequada provavelmente levará o instrumento a erros.

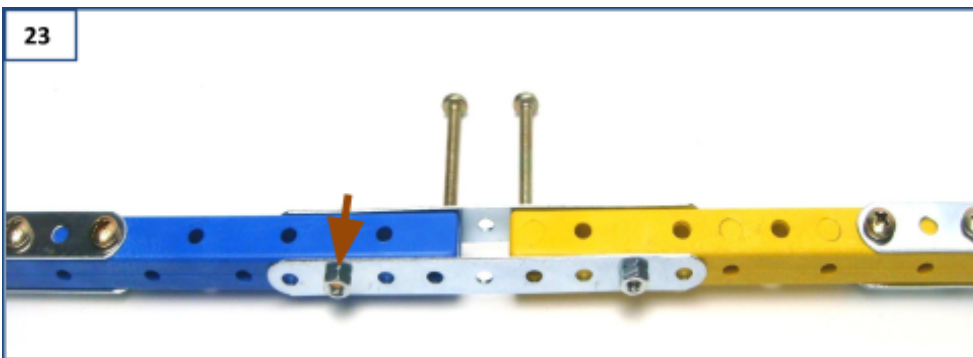

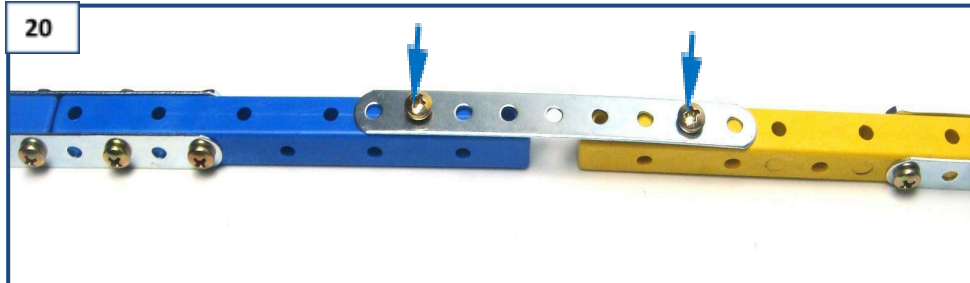

da

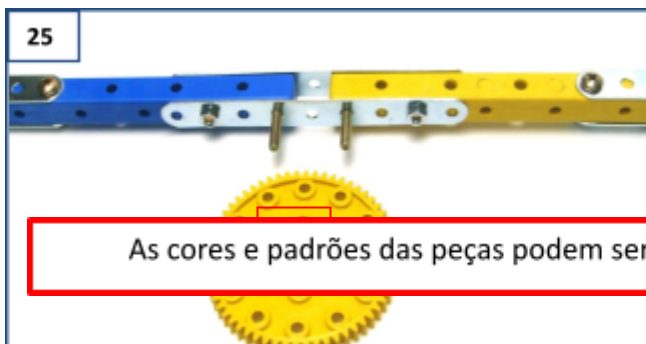

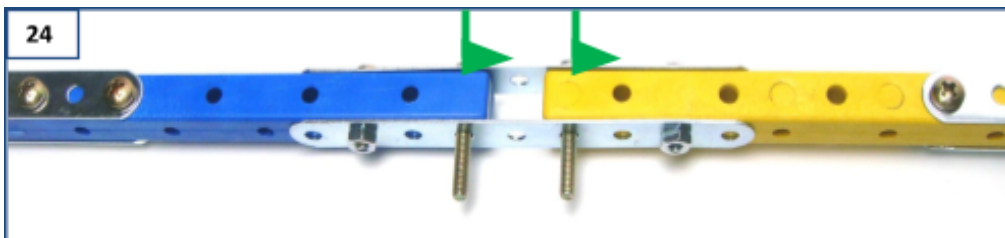

Repita o processo anterior, mas com peças de cores diferentes. Isso facilitará na hora das medições.

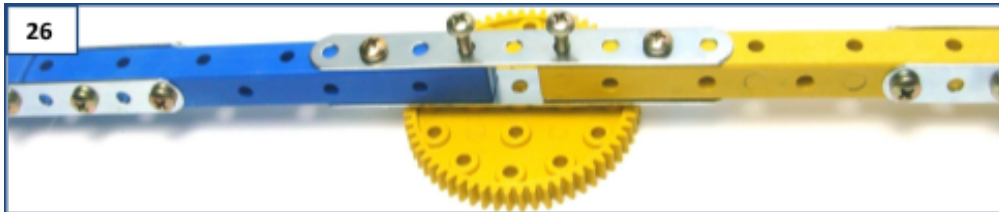

As cores e padrões das peças podem ser diferentes das imagens.

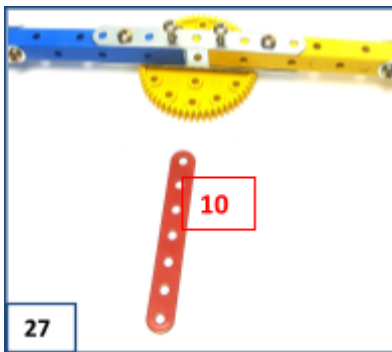

Acoplado o *fiel*.
